\*Add 2" to the Outside depth for handle clearance

\*\*Distance from side of safe to adjacent wall to achieve **Clear Door Opening**

**SUPERIOR FIRE PROTECTION.** The safe is installed in concrete below the floor. In a fire as the heat rises, it moves up and away from the safe contents.

**SUPERIOR SECURITY.** The only surface of the safe available to attack is the door, which has the high- security features.

The benefits of the single piece, molded body are obvious - it will not leak or rust and provides multiple storage benefits.

**PATENTS:** 5,503,088 and 4,532,870

**S1200**

**FS2300**

**FS4000**

Doors easily lift out without tools

Optional 1" and 1 1/2" thick doors available for FS2300 and FS4000 models

Combo or Electronic locks available

**HAYMAN SAFE COMPANY** was founded in 1971 by Bill Hayman. Located then in South FL, the company has been continuously family-owned by Bill Hayman and now by his son, Gary (both military veterans – Go Navy!) The company grew, and was moved in 1975 from South Florida into larger manufacturing facilities in Central Florida.

In 1982, the first of several patents was developed. This patent was for a unique approach to a floor safe hinge, making the door removable without tools, greatly facilitating flexible use of the safe.

In 1984, as the company continued to grow, it once again needed larger facilities and moved to its current location near Orlando, FL.

Hayman Safe Company has always looked for ways to improve its products. It recognized the issue of installing a steel body floor safe into the ground, which will result in rust problems. Hayman once again came up with a novel approach to in-floor safe design – use plastic! The 2nd patent was awarded in 1996 for a floor safe body formed from polyethylene. Of course, the door and door frame remain solid steel!!

In 1996, Bill was ready to move on and facilitated the transfer of management of the company to his (appreciative!) son, Gary.

In 2016, 2021 and then in 2024, the company expanded its warehouse capacity.

Always forward looking and innovative, Hayman Safe Company will continue to collaborate internally and with our dealers to find answers to the needs of our customers.

## **ONE YEAR WARRANTY**

All Hayman Safe Company products carry a warranty to the original retail purchaser to be free from defects in material and workmanship. Standard production models are warranted for 1 year from the original date of purchase. This warranty applies only to new safes purchased from Hayman Safe Company or its authorized dealers. Proof of purchase must be provided so as to establish date of purchase and supplying dealer.

Hayman Safe Company will, at our option, replace or repair any defective part or unit. To obtain factory warranty service, please contact an authorized Hayman Safe dealer. Authorization must be received from Hayman Safe Company prior to performance of any service which will be submitted under warranty.

Improper installation, use, lack of proper maintenance or accidental damage will nullify this warranty. No other warranty, expressed or implied, is offered. This warranty cannot be changed, modified, enlarged or altered without direct written consent from Hayman Safe Company. Hayman Safe Company is not responsible for consequential damage, incidental expenses or personal injury. This warranty gives you specific legal rights, which vary from state to state.

## **THE HAYMAN LIFETIME GUARANTEE**

Hayman Safe Company will, at our option, replace or repair any of our standard production safes equipped with boltwork mechanism that are ever successfully burglarized. Call an authorized Hayman Safe dealer to claim this warranty. We will require a copy of the police report. The burglarized safe must be returned to us, freight paid. We will repair or replace the safe to you, freight collect.

## **THE POLYMER FLOOR SAFE GUARANTEE**

Hayman Safe Company will, at our option, replace or repair any of our polymer-body floor safes that are ever successfully burglarized. All polymer-body safes damaged by fire, or damaged by seepage through the body will, at our option be repaired or replaced. Improper installation can nullify this guarantee. Call an authorized Hayman Safe Company dealer to claim this warranty. We will require a copy of the police or fire department report. The burglarized safe must be returned to us, freight paid. We will repair or replace the safe to you, freight collect.

## **GUN SAFE GUARANTEE**

### **Burglary Protection**

Hayman Safe Company will, at our option, replace or repair any standard gun safe that is ever successfully burglarized. To claim this guarantee, ship the burglarized safe and a copy of the police report to us. We will repair or replace the safe and return it to you. Improper installation can nullify this guarantee.

### **GUN SAFE FIRE GUARANTEE**

Hayman Safe Company will, at our option, replace or repair any standard gun safe if its contents are ever damaged by a house fire. To claim this guarantee, ship the fire damaged safe and a copy of the fire department report to us. We will repair or replace the safe and return it to you. Improper installation can nullify this guarantee.

## **HAYMAN SAFE T-10 SECURITY LABEL**

For over 50 years Hayman Safe Company has been building security containers for commercial, industrial and residential use. Our leading designs have influenced the marketplace by improving protection from forced entry and providing increased management of valuables.

During this time, we have seen several of our designs under-rated when being compared to other manufacturers by national testing laboratories due to the attempt to place very different safes into a single category.

We are providing a Real-World Burglary Label that will assure the consumer of the level of protection they are actually purchasing, without embedded cost and testing fees.

Please visit our website for a full description of the Hayman Safe Company T-10 Security Test
